**100%**

**Sector:** Agribusiness  
**Geography:** Nigeria

## Company Overview

Ajyad Farms is a modern agribusiness established to produce high-value cash crops for export and local markets. As a strategic venture of Ajyad Investments Limited, the farm is built to operate at scale, meet quality standards, and contribute to food security and economic growth.

## Core Activities

- Commitment to quality and excellence in every stage of production
- Sustainable and environmentally responsible farming practices
- Empowerment of local communities and workforce development
- Reliability in meeting market and client demands
- Long-term value creation for investors and stakeholders

## Investment Rationale

Ajyad Investments Limited is investing in Ajyad Farms to capitalize on rising demand for agricultural commodities, Nigeria's production advantage, and export opportunities. The venture offers scalable growth, sustainable returns, and long-term value in a high-demand sector.

**20%**

**Sector:** Oil & Gas industry  
(Midstream segment).

**Geography:** Nigeria

## Company Overview

MMELT Energies Limited is a midstream energy company created under the Federal Government's Gas Monetization Programme to convert flared gas into commercially viable energy. The company has been allocated the Diebu Creek and Nun River gas fields in Bayelsa State, positioning it to support Nigeria's gas transition agenda while delivering sustainable energy solutions and long-term value through gas capture and commercialization.

## Core Activities

- Development and operation of gas flare monetization projects
- Capture, processing, and commercialization of associated gas
- Management of allocated gas fields (Diebu Creek & Nun River)
- Gas processing and midstream infrastructure development
- Supply of processed gas for power generation and industrial use
- Support of national objectives to reduce gas flaring and emissions

## Investment Rationale

Ajyad's 20% equity investment in MMELT Energies Limited aligns with Nigeria's gas transition policies while diversifying Ajyad's portfolio into the energy sector. The project offers early entry into a government-backed midstream initiative with strong potential for long-term, recurring revenue from gas commercialization and sustainable returns.
